Audio-Visual Installation Technician for Rochester & Syracuse

Description

Audio-Video Corporation, the premier upstate NY audio visual commercial integrator is seeking experienced technical installation staff to join our team. For eighty years our team of professionals have been working collaboratively to develop a culture that fosters excellence and compassion in everything we do. We inherently understand each team member's need for personal and professional growth. Our philosophy is to create an environment that is pliable, enabling us to recognize and support individual employee goals. A team that is personally satisfied will provide work outcomes that far exceed our customer's expectations. This reason alone is why Audio-Video Corporation is one of the oldest AV integration firms in the country. We are excited to welcome others with vision, passion, and talent to experience our unique corporate culture.

Responsibilities

We require experienced, self-directed technicians capable of working independently and on teams in a highly supportive, fast-paced environment, installing and servicing state-of-the-art audio-visual systems in New York and Vermont. You will have the ability to work at client sites which may include Fortune 100 companies, Universities, Government Institutions and others.

Qualifications

- Relevant experience in audio-visual systems integration or service
- Ability to work at heights up to 30 feet from scaffolds, catwalks, or lifts
- Visual acuity and manual dexterity for close work
- Experience with basic hand tools and power tools
- Ability to lift 70 pounds
- Availability for overnight travel primarily in New York and Vermont
